## Old Master Painting Redo

Choose one of the paintings below (download from your choice of online resources) and update it similarly to the Calliebotte painting shown at the left. The purpose is to alter the painting to make it more contemporary. You may do this two ways:

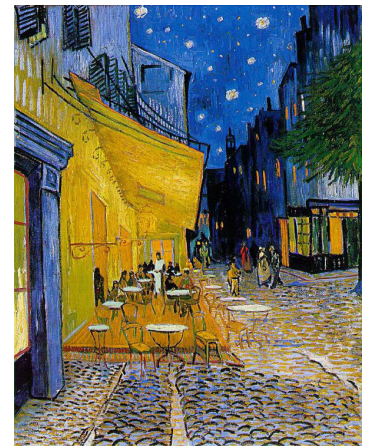

**Version 1:** You may make the painting monochromatic (one color) but you **MUST** also alter the painting by deleting or adding.

**Version 2:** Combine the painting with another photograph, but you must apply the 'feel' of the painting to the photography.
